

I am appalled at the decision by Sinclair Broadcasting Corporation to preempt regular broadcasting to air a piece that can only be considered a smear attempt on John Kerry in the final run-up to the election. This is an unconscionable political act.

As a user of public airwaves, they are required by law to serve the public interest. This upcoming airing is a blatant violation of their responsibilities. It is not in the public interest and is certainly not serving our community. Instead, it is an illegal political contribution of OUR airwaves for partisan use.

This media giant is hurting America. It is your responsibility to require them to stop such an unethical and probably illegal act.

Furthermore, I urge you to not renew their license to broadcast.
